

Conference Support and Opportunities for Junior Researchers

A major goal of DAE 2009 is to assemble experienced and new researchers in design and analysis of experiments to discuss current and future directions of research in the emerging and traditional areas of design. The DAE 2009 conference plans to provide support for junior researchers(graduate students, or researchers who graduated in or after 2004) to the extent that grant funds allow.

To participate in the mentoring program or give an oral or poster presentation, submit abstract via link on main menu of homepage(note deadline there). To be considered for support you must include a current version of your curriculum vitae with this registration form.

Support for the conference includes payment of the registration for the conference (\$200) and up to 3 nights accommodation (Oct. 14 - Oct. 16) at the conference hotel. Decisions on support will be made by August 17, 2009 and participants will be notified by email. Preference will be given to those who have not received support at previous DAE conferences.
